loss or absence of the capacity to express thoughts or ideas by written, spoken, or gesticulated means.

Autistic thinking - definition of autistic thinking by The ...

Autistic thinking has its own direction. It mirrors the fulfillment of wishes and strivings, thinks away obstacles, conceives of impossibilities as possible, and of goals as attained. It does so by facilitating those associations which correspond to the striving, and by inhibiting those which contradict it, that is by mechanisms familiar to us as influences of affects.

Autistic thinking.

Predictive and sequential thinking can be problematic for those with a diagnosis on the autism spectrum. We are required to use predictive thinking in a whole range of situations. This can range from thinking about how someone is going to react to something we have done or something we are going to say to planning and organising what you need to take in your schoolbag or when you
