The lesson of the Boeing business model is simple: add strength when weakness is sense and a company will stay strong. With multiple cycles spinning strongly, profits are generated with every completed feedback loop. Boeing has recognized that the same cycles can spin within their employees as well to create superior services and quality products.

Boeing Business Model and Their Strategy - BrandonGaille.com

In-depth takeoff, cruise and approach/go-around briefings should be conducted before each flight to ensure understanding among crewmembers and the effective application of crew resource management (Crew Resource Management). A thorough briefing should be conducted regardless of how familiar the crewmembers are with the flight plan and each other.

Flight Preparation and Conducting Effective Briefings ...

Briefing the instrument approach is an absolute must for every instrument flight for several reasons. Briefing prior to an approach gives you a chance to catch mistakes you made setting up your avionics, but more importantly, it gets you in the right mindset for the approach. There is a wealth of information on the approach plate.
