Cessna 172

Cockpit Layout

The Cessna 172 Cockpit Layout is simple and practical for a small single-engine aircraft. The Cessna 172 seat four people comfortably with the pilot and passenger/co-pilot in front and two passengers seats in the back. The Cessna 172 Instrument Panel is right in the center of the cockpit in front of the pilot.

In the Cockpit - The Basics of Aviation

The cockpit layout and aircraft controls As well as the control surfaces, the CH three-lever yoke operates the throttle and mixture, flaps, trim and parking brake. The centre lever (normally used for prop pitch) is not used at the moment. To the left of the yoke is the Main Switch Panel, a GoFlight GF-T8 toggle switch module.

The Cessna 172 Skyhawk is an American four-seat, single-engine, high wing, fixed-wing aircraft made by the Cessna Aircraft Company. First flown in 1955, more 172s have been built than any other aircraft. It was developed from the 1948 Cessna 170, using tricycle undercarriage, rather than a tail-dragger configuration..
