syndrome are actually Lyme disease in disguise. If you are suspicious that you or a patient might have Lyme disease, the first step is to undergo evaluation and testing.

Lyme Disease & Fibromyalgia, Chronic Fatigue, Arthritis

Lyme disease, chronic fatigue syndrome and fibromyalgia can be tricky to differentiate. With some shared symptoms, difficult diagnostics, and the unfortunately shared trait of having a large population of doubters, people suffering from one or more of these conditions can be facing a difficult health struggle.

Lyme Disease, Fibromyalgia or Chronic Fatigue Syndrome ...

In areas where Lyme is not endemic, patients with symptoms like muscle pain and fatigue may be investigated for conditions like fibromyalgia, chronic fatigue syndrome, or MS before Lyme disease is considered. Some cases of fibromyalgia may also be mistaken for Lyme disease.

Lyme Disease and Fibromyalgia: How to Tell the Conditions ...

Let's bring it all back - Chronic Lyme disease complex can affect the Hypothalamic-pituitary-adrenal axis in two ways: via neurotoxins and epigenetic shifts. So if imbalances in the HPA axis can lead to Chronic Fatigue Syndrome, depression, insomnia and generalized pain, all of which is related to fibromyalgia, then it seems there is a strong link from Lyme disease complex and its coinfections to FMS.

The Surprising Link Between Fibromyalgia and Lyme Disease ...

- Chronic Fatigue And Lyme NJ

This book is more than just about disease signs and symptoms. It is a collaborative memoir of hope. Too often, Lyme disease, chronic fatigue, and fibromyalgia patient message boards and forums have only stories of defeat. Hardly does anyone tell a story that offers the most potent healing ingredient of them all: insight from having traveled the path.

Lessons from Lyme Disease, Chronic Fatigue, and ...

My view is this - CHRONIC Lyme disease is a result of poor immune dysfunction, often part of ME/CFS/Fibromyalgia. Hence it is a consequence of illness more than a cause of it. Yes, it causes much dysfunction and symptoms and needs to be addressed, but as a consequence of ME/CFS/Fibromyalgia.
