## **Statement Analysis And Security**

Students learn to view a firm through its financial statements and to carry out the appropriate financial statement analysis to value the firm's debt and equity. The book takes an activist approach to investing, showing how the analyst challenges the current market price of a share by analyzing the fundamentals.

The main pretext of the book is that financial statement analysis and valuation analysis are inextricably entwined: valuation is an exercise in financial statement analysis. Financial statement analysis is directed by the need to get information for valuation. Accordingly, the book brings finance and accounting concepts together.
