Mar 1, 2014 - This board is where I keep all the images related to the Geometry Dream House Project I started planning in 2014. See more ideas about Dream house, Geometry, Home projects.

10+ Geometry Dream House Project ideas | dream house ...

The objective of this project is for students to design and build a TINY HOUSE, while applying area, perimeter, and geometry skills. This project based learning activity also focuses on designing elements, using multiple problem solving skills, and collaborating in the classroom.

Build A Tiny House - Mr Dong Weebly

More Geometry Lessons In these lessons, we will learn how to use a pair of compasses and a straight-edge to construct different geometric shapes given certain conditions. Geometric constructions involve drawing geometric shapes that satisfy certain requirements using a straight-edge and a pair of compasses.

Geometry: Constructions (solutions, examples, videos)

In this geometry project, students create a booklet that demonstrates their mastery of geometry vocabulary. Students find a geometry vocabulary word that starts with each letter of the alphabet. Then they write the definition and draw a picture representing that word. I give points for creativity, color, and neatness.
