Lab-line Replacement Parts - York Scientific

Lab Shakers Combine the convenience of a benchtop design with orbital shaking technology in one package with Thermo Scientific™ MaxQ™ 4000 Benchtop Orbital Shakers. Versatile, incubated and refrigerated, these shakers are ideal for cell culture, solubility studies, extraction procedures, protein expression and many other applications.

MaxQ™ 4000 Benchtop Orbital Shakers

The Lab-Line Model 4628 Force Environmental Orbital Shakers is designed for applications that require orbital shaking with precise digital control over speed, time and temperature. The 4628 comes with a microprocessor temperature control from above ambient to 60°C with ±0.1°C accuracy and ±0.5°C uniformity; below ambient temperature operation with a factory installed cooling coil.
