The production of leather goes back to prehistoric times. In the Middle Ages, leather was used for shoes, belts, armor, horse tackle, furniture, and a wide assortment of everyday products. Leather could be dyed, painted, or tooled in a variety of fashions for ornamentation.

**Medieval Clothing and Fabrics in the Middle Ages**  
Skipping forward to the 8th century of Spain (then under the dominion of the Moors) we have the development of the production of "Cordovan", thanks to important progress in tanning, a type of leather famous throughout Europe for centuries. That skill in leather tanning was not a prerogative of the western world as recounted by Marco Polo.

**History of Leather - Leather Resource**  
Largely, Middle Ages crafts were not hobbies or artistic demonstrations, but trades that had been studied and mastered by craftsmen. Craftsmen joined forces and organized in craft guilds that allowed them the opportunity to gain prestige, power, and wealth through the practice of their trades.

While wearing gloves, shape the leather and hold it. As it cools it will take on the new shape. Place the piece on the plywood to continue cooling. When finished let all the wax cool in the pan. Put the pan with the wax in it away until next time. Waxed leather can be worked with most leather working tools, but it may get the blades waxy.
