Whether its sporting a Celestion Vintage 30 or a G12H90 that was custom-voiced for Line 6, each DT50 boasts clean tones that sparkle and sing, creamy overdrives that respond to the intricacies of your picking, and searing high-gain tones that launch themselves from the cabinet. Specifications: • Advanced HD modeling technology

Line 6 DT50 - 1x12 Combo - Long & McQuade Musical Instruments

I bought one of these dt50 line 6 amps in 2011/2 brand new from a shop here in the UK. Everything was fine for a few months then it began to unravel. After one warranty repair and 3 repairs down to me I'd finally had enough. The chap who repaired it said exactly what you described in the article, practically no schematics, help etc from Line 6.

All the way to Mercury and back for a Line 6 DT-50 ...

The DT50's control panel feels much more 'classic' amp-like than many Line 6 amplifiers. Line 6 DT50 Line 6 has had previous forays into combining its amp modelling technology with valves in the Spider Valve amps, designed in collaboration with Reinhold Bogner.

Line 6 DT50 review | MusicRadar

Line 6 is a music instruments manufacturing company that specializes in guitar amp and effects modeling, and makes guitars, amps, effects pedals, multi effects processors, guitar wireless, vocal wireless, music software, recording interfaces, digital mixers, and personal amplification speakers.

Line 6

Line 6 wrote the book on modelling and gave the world's guitarists a revolution in sounds with its Pod range. The company's later move into applying that technology to amplification may not have been as hugely successful, but Line 6 is a very smart company and it's not too proud to call-in outside help when it thinks it needs it.

Now, Line 6 has introduced the new DT50 line of 50-watt, two-channel amps co-designed by Bogner. Without scores of onboard digital effects, the DT50s ostensibly offer a simpler path to classic, authentic tube tones, response, and feel—everything from clean Fender and Vox flavors to high-gain Marshall tones.
