Old nations that have long been integrated into larger Western states, such as Catalonia, Wales, Scotland, and Quebec, have recently reemerged seeking political recognition and autonomy. Guibernau dissects the sources of this rising substate nationalism and its future significance in world politics. His account first cites the well-known reasons for these movements: globalization, the proliferation of transnational identities, and the diffusion of political authority away from the nation-state.

The concept and practice of a nation work to establish who belongs and who does not (insider vs. outsider). Such conceptions often ignore political boundaries such that a single nation may "spill over" into multiple states. Furthermore, states ≠ nations: not every nation has a state (e.g., Kurds; Roma; Palestine).

Nation is a cultural-political community. A nation is formed by factors like common race, common language, common culture, common history, common territory, etc. But none of these are absolute essentials. For example, a nation can survive without a territory, but love for a common territory may unite the nation.
