Principles of International Financial Law. Third Edition. Colin Bamford. Description. This book explains the legal principles, rules, concepts, and developments that underpin the practice of financial law in common law countries, and by extension across the world.

Principles of International Financial Law - Hardcover ...

The book examines a number of legal concepts developed in the common law world that form the foundation of the operation of international financial transactions. It does not deal with the detailed rules that govern financial transactions, but rather with the ideas that gave rise to the present rules and which, when those rules change, will underpin the new rules that replace them.

LL4H4 International Financial Law

International law dictates that in any dispute, the parties must endeavor to resolve their dispute in a non-threatening manner, and the use of force is prohibited. The failure of a state to enter or engage in good faith negotiations to resolve any conflict is a de facto violation of this principle of international law.
