Economic theory can explain human
behavior in ways similar to
thermodynamic explanations of
molecular motion, but humans aren't
molecules. You can't simply describe the
impact of globalization or tax policy on
humans without a moral framework; an
attempt to objectify humans as you'd
objectify hydrogen molecules contains
its own grim morality.

The moral lessons. The eurozone project supplies key economic and moral lessons. First, currency unions have historically never worked because of the discrepancies between the national governments involved. Either the EU becomes a single nation, or its currency union will unravel. We see the beginning of a continental government forming today.
