If that doesn't work: However challenging, try to maintain a positive regard for the patient and take the time to understand their life and what it must feel like to step into their shoes and walk around in them, as Atticus Finch said. 2 . 3. Patient armed with a 'shopping list'

Ten challenging patients (and how to tackle them) | Pulse ...

Worrying about a patient who is going to yell at you – or worse, hit you – makes nursing seem like a much more difficult job than it is. Some nurses may feel that they have personally failed when a patient acts out against them. It isn't a reflection of the nurse or their skill in handling patients.
